How Bohemian Rule Is Hampering Russia

Country Used to Fervid Work of World's Platinum

How Bohemian rule in Russia has retarded the development of that country's natural resources is well illustrated in the case of platinum, one of the rarest of metals, occurring abundantly in the Ural mountains, but in a few widely scattered localities. Yet it is of great industrial importance and practically indispensable in the chemical industry and in some fields of art. Canada has been the only country to produce platinum, and it is the only country to produce platinum, and it is the only country to produce platinum.
